

I just moved to Wisconsin four months ago. I formerly lived in Paradise California. There wasn't a day or night that went by that I did not listen to them. They made each day brighter with their encouraging words and wonderful music.

One night I was so depressed I could not stop crying. I knew there would be someone to answer the phone at K-love who would have the time to talk to me at three in the morning. Without K-love life would have been terrible.
